Md Abu Sayed Khan Faisal

has successfully completed the online, non-credit Specialization

Renewable Energy

Learners who complete the Renewable Energy specialization on Coursera should have a thorough understanding of renewable energy concepts, tools, and applications. New technologies, new market structures, and new business models make renewable energy a dynamic, entrepreneurial, and exciting field. This specialization focuses on pragmatic and fact-based information, including real-world costs and technical performance, market trends, and web-based analysis tools. The courses in the specialization use lectures, case studies, and interviews with industry leaders to provide a comprehensive and up-to-date education on renewable energy.

Stephen R. Lawrence,
PhD
Associate Professor
Emeritus
Leeds School of
Business

Paul Komor
Research Faculty
Energy Institute
University of Colorado
Boulder

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
